

# Call for PhD Symposium: Euro-Par 2021

The 1st Euro-Par PhD Symposium will be held virtually in 2021 with presentations by students working toward a PhD in broadly defined areas related to parallel and distributed processing. The accepted papers for presentation at the PhD Symposium will be published as part of the Euro-Par workshops proceedings.

## KEY DATES

**Submission:** 25 May 2021 AoE (*extended*)

**Author notification:** 30 June 2021

# Call for Applications

Applicant students must be officially enrolled in a PhD Program at the time of submission, and each submission MUST be backed by an endorsement from the official PhD adviser(s). Masters students on track to enter a PhD program may apply but should meet the same standards as other applicants. Required submission files:

- 1. **Proposal (4-page paper)**, including:
  - Title of work, author and adviser(s) names, affiliations
  - Abstract of the work
  - Brief description of work being done, including problem being addressed, the research methodology being used, and any preliminary results (if any)
- 2. **Adviser Statement of Support** (on institutional letterhead), including:
  - Declaration that the applicant is a full-time student
  - Confirmation of support for applicant's participation
  - Declaration of length of time the student has been under adviser's supervision
  - Student main contributions

**Note:** the adviser should email this statement (as a link or as a pdf attachment) to [2021phd-symposium@euro-par.org](mailto:2021phd-symposium@euro-par.org). The email subject should be: "Adviser Statetment of Support # <submissionid>"

# Submission Guidelines

## Applicant:

Applicants should prepare the submission documents that address item 1 above. The proposal manuscript must be in PDF format and cannot exceed four (4) pages (including references), formatted in the [Springer LNCS style](#). Applicants should submit the manuscript through EasyChair:

<https://easychair.org/conferences/?conf=europar2021>

## Adviser:

The advisor should submit the Letter of Support by the end of submission deadline. Otherwise the application may be rejected without review.

# Review of applications

The Euro-Par PhD Symposium 2021 committee members will review the submitted applications. Submitted documents that do not meet the above requirements might be rejected without a review. All submitted proposals will be checked for originality by Springer iThenticate (proposals which show an insufficient originality might be rejected without a review).
